

# GreatPhotography's Greeting Card Designer Program Extras

---

## Using Greeting Card Extras

Greeting Card Extras are designed to be used with the Photoshop Actions provided in the standard Greeting Card Designer application. Be sure that you have completed the installation of the tool presets, actions and templates provided on the distribution CD.

### Mirror Reflection Action

Type: Photoshop CS2 Action

Card Size: Works with 7 x 10 inch greeting cards.

#### To install this action:

- ❖ Download and save this action in the same directory that you installed the Greeting Card Files.
- ❖ Open Photoshop. Click on the fly-out menu on the Actions Palette.
- ❖ Click on Load Actions and select the Greeting Card Extras.atn file

#### To use this action:

- ❖ Select the image you want to use for your card
- ❖ Crop the image to the appropriate size. (This action works with 7 x 10 inch cards)
- ❖ Run the appropriate 7 x 10 inch action to create the standard card. Do NOT make any changes to the card.
- ❖ Then run the appropriate Reflection Frame action from the Greeting Card Extras group of actions.
- ❖ After you have run both actions you can edit the card as you wish.
